

Film Capacitors – AC Capacitors

Motor run capacitors

Series/Type:	FHP Motor Capacitors
Ordering code:	B32320R*/B32322R*/B32327R*/B32328R
Date:	2023-02-06
Version:	6

Film Capacitors – AC Capacitors

B32320R*/B32322R*/B32327R*/B32328R

Motor run capacitors

FHP Motor Capacitors

Construction

- Dielectric: polypropylene film
- Plastic case with plastic top
- Polyurethane resin
- Dry type

Features

- Self-healing properties
- Low dissipation factor
- S0/P0 safety class
- High insulation resistance

Typical applications

- For general sine wave applications, mainly as motor run capacitor

Terminals

- Fast on terminals (single fast-on - B32320, double fast-on - B32322)
- Flexible lead wire - B32327
- Insulated cable or wire with sleeve - B32328

Mounting parts (optional)

- Threaded stud at bottom of can (M8, max. torque = 5 Nm)
- Plain can

Technical data and specifications

Reference standards	IEC60252-1 IS 2993
Life expectancy to IEC 60252-1	440V, +85°C:10000 h (Class B)
Safety class to IEC 60252-1/ IS 2993	S0 / P0
Rated capacitance C_R	See table ordering codes, page 6
Tolerance	$\pm 5\%$, other tolerances upon request
Permitted capacitance $\Delta C/C$	$\leq 3\%$
Rated voltage V_R	440 V AC
Rated frequency f_R	50/60 Hz
Maximum ratings	
Maximum permissible voltage V_{max}	1.1 V_R (V_R = rated voltage)
Maximum permissible current I_{max}	1.3 I_R (I_R = rated current)

Film Capacitors – AC Capacitors
B32320R*/B32322R*/B32327R*/B32328R
Motor run capacitors
FHP Motor Capacitors

Test data																									
AC test voltage terminal to terminal V_{TT}	2 V_R , 2 s (routine test) 2 V_R , 60 s (type test)																								
Insulation resistance R_{ins} or time constant τ at +20 °C, Rel. humidity max. value 85%, annual means $\leq 65\%$	3000 s																								
Dissipation factor $\tan \delta$ at+ 20 °C	$\leq 7.0 \times 10^{-3}$ (1KHz)																								
Maximum rate of voltage rise dv/dt_{max}	10 V/ μ s																								
Climatic data																									
Climatic category	25/085/21																								
Lower category T_{min}	−25 °C																								
Upper category T_{max}	+85 °C																								
Damp heat test t_{test}	21 days																								
Mechanical and thermal properties																									
Plastic can and top disk material	Plastic as per IEC60252-1																								
Compatibility to RoHS																									
Compliance to directive 2011/65/EU	<div></div>

Notes for ordering code:
#: Series of capacitor:

0 - Single fast-on 6.35 x 0.8 mm
 2 - Double fast-on 6.35 x 0.8 mm
 7 - Flexible wire terminals
 8 - Wire with sleeve

±: Tolerance on

capacitance J - ± 5%

\$. Construction

2 - Plastic can without mounting
 4 - Plastic can with M8 stud

*: Wire length (dimension 'b' in drawing) up on request

Cautions and warnings

⚠ Please read "Applications warning, installation and maintenance instructions" and the "General Safety Data Sheet for Power Capacitors" issued by ZVEI, which are available on the internet at www.tdk-electronics.tdk.com/ac_capacitors, to ensure optimum performance and to prevent products from failing, and in worst case, bursting and fire. Information given in the data sheet reflects typical specifications. You are kindly requested to approve our product specifications or request our approval for our specification before ordering.

Product for sales in India only
Display of ordering codes for TDK Electronics products

The ordering code for one and the same product can be represented differently in data sheets, data books, other publications, on the company website, or in order-related documents such as shipping notes, order confirmations and product labels. **The varying representations of the ordering codes are due to different processes employed and do not affect the specifications of the respective products.** Detailed information can be found on the Internet under www.tdk-electronics.tdk.com/orderingcodes

Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application**. As a rule we are either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether a product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified**. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of an electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of an electronic component.
3. **The warnings, cautions and product-specific notes must be observed.**
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as hazardous)**. Useful information on this will be found in our Material Data Sheets on the Internet (www.tdk-electronics.tdk.com/material). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order.

We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available. The aforementioned does not apply in the case of individual agreements deviating from the foregoing for customer-specific products.

6. Unless otherwise agreed in individual contracts, **all orders are subject to our General Terms and Conditions of Supply**.
7. **Our manufacturing sites serving the automotive business apply the IATF 16949 standard**. The IATF certifications confirm our compliance with requirements regarding the quality management system in the automotive industry. Referring to customer requirements and customer specific requirements ("CSR") TDK always has and will continue to have the policy of respecting individual agreements. Even if IATF 16949 may appear to support the acceptance of unilateral requirements, we hereby like to emphasize that **only requirements mutually agreed upon can and will be implemented in our Quality Management System**. For clarification purposes we like to point out that obligations from IATF 16949 shall only become legally binding if individually agreed upon.

Important notes

8. The trade names EPCOS, CarXield, CeraCharge, CeraDiode, CeraLink, CeraPad, CeraPlas, CSMP, CTVS, DeltaCap, DigiSiMic, ExoCore, FilterCap, FormFit, InsuGate, LeaXield, MiniBlue, MiniCell, MKD, MKK, ModCap, MotorCap, PCC, PhaseCap, PhaseCube, PhaseMod, PhiCap, PowerHap, PQSine, PQvar, SIFERRIT, SIFI, SIKOREL, SilverCap, SIMDAD, SiMic, SIMID, SineFormer, SIOV, ThermoFuse, WindCap, XieldCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at www.tdk-electronics.tdk.com/trademarks
